Expo App Icon & Splash

Icon

App icons should be 1024px by 1024px, like the frame below. Try to fit the edges of your design within the outer concentric circles if using a logo as your app icon.

Adaptive icon

Adaptive icons are used with android devices. Try to fit your design within the outer conentric circles is using a logo as your app icon. To use this icon, you'll need to put the `android.adaptiveIcon.foregroundImage` property in **app.json**.

Splash

Splash screens are part of the loading sequence. Make your splash screen look exactly like your app's main page. Avoid putting text/branding/logos on this screen.
